## OBJECTIVE

To obtain a challenging and rewarding role as a Mobile Application Developer, utilizing my skills and experience to deliver high-quality solutions and contribute to the growth and success of the organization or business.

## PROFILE

I'm a highly motivated and results-driven professional, excelling in detailed-oriented Flutter development with 4 years of experience in designing and developing cross-platform and scalable Mobile Applications. Proficient in Java, Dart, and various APIs with a strong understanding of software development principles and best practices. With a Bachelor's Degree in Cyber security, I bring a blend of technical expertise, creative problem-solving and Data security to every project.

## TECHNICAL SKILLS

Proficiency in Java, Dart, C++

Cross-platform App Development

Proficient with Flutter and Android SDK frameworks

Firebase Real-time Database, SQLite

Git

RESTful APIs

BLoC State management

## SOFT SKILLS

Creativity

Excellent Communication

Problem solving

Good Time-management

Security and Data protection

## PROFESSIONAL EXPERIENCE

### Freelance Mobile Application Developer (Jan, 2023 – Present)

- Designed and developed multiple Flutter Applications for Android and iOS platforms
- Collaborated with cross-functional teams to identify and prioritize project requirements
- Edited and re-designed a Mobile Application for an e-commerce fashion brand, resulting in 25% increase in sales.

### Junior Android Developer, Paritie Hub (Jul, 2020 - December, 2022)

- Contributed to the development of Android Applications using Java and Android SDK
- Assisted in designing and implementing user interfaces, APIs, and databases
- Collaborated with senior developers to resolve technical issues and improve code quality

- Participated in code reviews to ensure adherence to coding standards

## **EDUCATION**

- Bachelor's Degree in Cyber security, Federal University of Technology | Minna, Niger State, Nigeria (Sep, 2016 - June, 2023)
- Diploma in Computer, AmiTech Computer training Institute

## **PROJECTS**

- Cybercrime Reporting App: An Android Application that simultaneously reports cybercrimes to multiple law enforcement agencies in Nigeria featuring authentication and Data storage using Firebase Real-time Database.
- Event seating arrangement software: An Android App that helps Event planners to prepare seating arrangements for guests without separating group of guests and exceeding proposed number of chairs per table.
- Chore Management App: A complete overhaul of a flutter Application that allows parents to assign and manage chores to children, featuring Authentication and Data storage using Firebase Real-time Database.

## **CERTIFICATIONS**

- Associate Android Developer, Google Developers 2021
- ISACA student certificate of recommendation
